manner. As much as we regret leaving Dundaff Village, we desperately need the additional space for office and garage. We expect to have some office space for rental - in fact, we have already had an inquiry from an Orthodontist!

We are thrilled with the Bank building renovation - pleased also with your effort on the City Hall -

Dave expects to spend a lot of time this winter on the drawing board - it's already set up in the living room - but the urge to get out in the sunshine is too great. He is building a "Tiki" - (picnic shelter) under some pines in the back "40".

We expect to be here for several months and will be watching the News for progress reports.

Sincerely,

Dorothea Adams
(Mrs. D. Ada)
